

Seventieth Annual Convention

The Catholic Theological Society of America

Sensus Fidelium

Hyatt Regency Milwaukee
Milwaukee, Wisconsin
June 11–14, 2015

The Seal of the Catholic Theological Society of America

The first and fourth quarters of the shield are tinctured red, the color of the Humanity of the Lord, and the cross is gold, the color of his Divinity. The cross of our salvation is an appropriate charge with which to quarter the arms of the Catholic Theological Society of America. The open book refers to the Sacred Scriptures.

To represent Tradition, the four Doctors of the Church who support the Cathedra Petri, enclosed in a casing of bronze above the apsidal altar of St. Peter's Basilica in Rome, are represented by their symbols in the four quarters of the shield. Two are of the Latin and two of the Eastern Church.

The beehive in the first quarter represents St. Ambrose, on whose lips as a young child a swarm of bees is said to have rested as a portent of his eloquence.

The symbol of the cross with the two rings in the second quarter represents St. Athanasius. Since "Athanasius" is from the Greek meaning "without death" or "immortality," a black field has been chosen to symbolize death and the cross is silver (white) to carry out the meaning of his name. Silver is the color of light and it is accentuated by being placed on a black background. The two circles, or rings, interlaced to symbolize unity in one person, represent the two natures in Christ, substantially joined, which Athanasius defended. They encircle the cross, the symbol of faith and of Jesus Christ, to bring to mind the Athanasian Creed which derives its title from this great Confessor and Doctor of the Church. The form of the cross used is Eastern, commonly known as the Greek cross.

The third quarter indicates St. John Chrysostom, Archbishop of Constantinople. His name means "golden mouthed." It is said that a snow-white dove flew into the church at his ordination. The beak of the dove has been tinctured in gold to symbolize his name. The black field was chosen to artistically balance the second quarter.

The fourth quarter bears the flaming heart with the two arrows to represent St. Augustine. This is the well-known symbol of the Bishop of Hippo.

The cross itself is the background for charges representing two recently declared Doctors of the Church. Passing behind the open book on the vertical arm of the cross is a red arrow. This represents St. Teresa of Avila, who described one of her spiritual experiences through the image of an angel wounding her heart with a dart. This transverberation, partly because of Bernini's depiction, became a common symbol of Teresa and her writings. A red quill pen, on the horizontal arm of the cross, represents St. Catherine of Siena. It calls to mind her writings and her authority. Its red color symbolizes Christ's redeeming us through the shedding of his blood, which is a theme prominent in her writings, as well as the gift of the stigmata which she received.

The chief, or the upper third of the shield, bears a golden sun on a white background. This is the symbol of St. Thomas Aquinas, Doctor of the Church and author of the *Summa Theologiae*. He is the patron of Catholic students, schools and universities. The stars represent Mary, the Mother of God, as "Stella Duce" and "Stella Maris," the guiding light of theological wisdom, and the "extirpator of all heresies."

Above the shield the lamp of learning and wisdom rests on a wreath to symbolize "Reason."

The order of the quarters follows chronologically the dates of birth of the four early Doctors. The first Latin Doctor, Ambrose AD 340, is in the first quarter; the second quarter portrays the symbols for Athanasius AD 296, the first Greek Doctor; in the third quarter Chrysostom AD 346, the second Greek Doctor; and in the last quarter Augustine AD 354, the second Latin Doctor. The Greek Doctors are placed between the Latin Doctors in the first and fourth quarters.

PAULIST PRESS

Pope Francis' Revolution of Tenderness and Love *Theological and Pastoral Perspectives* **Cardinal Walter Kasper**

Written with the popular reader in mind, this book outlines the significant influences that

have led Cardinal Kasper to call Francis a pope leading a radical revolution of tenderness and love—radical because it is rooted in the gospel.

978-0-8091-0623-3 \$16.95 HC

The Trinity *How Not to Be a Heretic* **Stephen Bullivant**

The Trinity is an invitation to Christians who are sure that they believe in something called "the Trinity," but are unsure as to what exactly that means, and uneasy about having to talk about it to others. Readers will come away with a better understanding of the Trinity so that they can then help

others—Christians, non-Christians, and maybe even some not-yet Christians—better understand it too.

978-0-8091-4933-9 \$17.95 PB

The Gospel of Jesus Christ **Walter Kasper**

THE COLLECTED WORKS OF
WALTER KASPER

The initial offering in the *Collected Works of Walter Kasper* includes "An Introduction to the Christian Faith" and "What Exceeds All Knowledge," followed

by an original essay on evangelization.

978-0-8091-0616-5 \$49.95 HC

Christian Anthropology *An Introduction to the Human Person* **Michele Saracino**

Vatican II ushered in a new outlook on living as Catholic Christians in a global world. This student-friendly textbook explores what it means to be human in light of our changing world and church.

978-0-8091-4925-4 \$29.95 PB

Pope Francis *Tradition in Transition* **Massimo Faggioli**

Captures some special moments and some key issues at the heart of the transition from Pope Benedict XVI to Francis, with the intuition that this unexpected transition reveals something which is not only a special "Catholic event," but also a particular

historical moment in a tradition in flux.

978-0-8091-4892-9 \$14.95 PB

Invitation to Practical Theology *Catholic Visions and Voices* **Edited by Claire E. Wolfteich**

A leading Catholic scholar in the field of practical theology gathers significant voices to write on the many aspects to be considered in the study of this emerging field.
