Science and Religion

Beyond Warfare and Toward Understanding

Joshua M. Moritz

“One of the many virtues of Joshua Moritz’s well-structured and wide-ranging introduction to the relation between science and religion is its resourceful use of historical scholarship to illuminate the origins and the limitations of an all-pervasive conflict model. Ambitious in its bid to replace conflict with peace, Science and Religion will be accessible and stimulating, as well as a successful student text.”

—John Hedley Brooke
University of Oxford

If God Is for Us

Christian Perspectives on God and Suffering

Gloria L. Schaab

“If there is a God, and if God is good, then how can God allow suffering and injustice? Perhaps no other question so urgently occupies young people struggling with religious commitment. But it cannot be avoided if one is to lay claim to honest and mature Christian faith. In her superb book If God Is for Us, Gloria Schaab probes various options and offers a way forward that takes both Christian belief and the reality of suffering seriously.”
